The testcourse.fun platform was created to support students' professional education through the use of digital tools and interactive forms of acquiring knowledge and translating it into a practical dimension.

A course dedicated to students of vocational schools, future programming technicians and IT specialists in the field of software testing.

The testcourse.fun website is an e-learning platform where you can find courses preparing you for the profession of a software tester. Completing the entire course and passing the knowledge test guarantees obtaining a personalized certificate. On the following pages of the presentation, we will discuss the functionalities of the platform, their operation and purpose.

## List of Functionalities

- Account registration and user login
- Course selection general information and site navigation
- Course and tests course of the educational path
- Certificates generating, searching, downloading
- User profile

#### The testcourse.fun platform

is an open resource, any user on the Internet can familiarize themselves with its contents, however, the course content is available only to registered and logged in users.

### **Creating an account**

Scroll down to the bottom of the main page. You will see a login form and a new user registration form. Fill in the data. Keep in mind that the value of the "Username" field will later appear on the Certificate.

#### Then click the "Sign Up" button.

LOGIN	SIGN UP

	Display name

### Login

You can log in from the login form at the bottom of the home page or click the "Profile" button in the top menu of the page. You will be redirected to a page with the same login form

#### **First login**

#### **Re-login**

#### **Password reset**

The first login to the portal is done automatically after registration. When opening the page on another device or in another browser, you must log in again

When you finish using our portal and close the tab, the user session will end. As a result, you will have to log in to the portal again. So remember the email you used to register and the password you used. You can save them in your memory but also in the browser's memory. You can log in from the login form at the bottom of the home page or click the "Profile" button in the top menu of the page. You will be redirected to a page with the same login form.

After logging in, you will be redirected to the Profile page. This is where the user panel is located. Anyone can forget a password. We are prepared for such a scenario.

In the login form, select "Forgot your password?". Then enter your username or email address and click the "get password" button. Check your email. You will receive an email with a link to create a new password.

## **Choosing a course**

Ucz się od praktyków i ekspertów vijaj swoje umiejętności razem z nami, zyskaj cje pożądane na rynku pracy i poszukiwane przez pracodawców naj nasz kurs

On the home page, click the "Discover our course" button. You will be redirected to the All Courses page

Kurs Podstaw Testowania Oprogramowania był dla mnie fantastycznym doświadczeniem! Bardzo podobał mi się sposób, w jaki materiał był przedstawiany zrozumiały, przystępny i pełen praktycznych przykładów. Nauczyciele byli nie tylko kompetentni, ale również bardzo pomocni i chętni do udzielenia odpowiedzi na wszelkie pytania. Dzięki temu kursowi zyskałem solidne podstawy w testowaniu oprogramowania i teraz czuję się pewniej w swojej pracy. Gorąco polecam ten kurs każdemu, kto chce rozwijać się w branży IT!
