Introduction

The testcourse.fun platform was created to support students' professional education through the use of digital tools and interactive forms of acquiring knowledge and translating it into a practical dimension.

A course dedicated to students of vocational schools, future programming technicians and IT specialists in the field of software testing.

The testcourse.fun website is an e-learning platform where you can find courses preparing you for the profession of a software tester.

Completing the entire course and passing the knowledge test guarantees obtaining a personalized certificate. On the following pages of the presentation, we will discuss the functionalities of the platform, their operation and purpose.

List of Functionalities

- ▶ Account registration and user login 01
- ▶ Course selection - general information and site navigation 02
- ▶ Course and tests - course of the educational path 03
- ▶ Certificates - generating, searching, downloading 04
- ▶ User profile 05

The testcourse.fun platform

is an open resource, any user on the Internet can familiarize themselves with its contents, however, the course content is available only to registered and logged in users.

Creating an account

Scroll down to the bottom of the main page. You will see a login form and a new user registration form. Fill in the data. Keep in mind that the value of the "Username" field will later appear on the Certificate.

Solve simple math problem.
Then click the "Register" button.

Login

You can log in from the login form at the bottom of the home page or click the "Profile" button in the top menu of the page. You will be redirected to a page with the same login form

First login

The first login to the portal is done automatically after registration.

When opening the page on another device or in another browser, you must log in again

When you finish using our portal and close the tab, the user session will end. As a result, you will have to log in to the portal again. So remember the email you used to register and the password you used. You can save them in your memory but also in the browser's memory.

Re-login

You can log in from the login form at the bottom of the home page or click the "Profile" button in the top menu of the page. You will be redirected to a page with the same login form.

After logging in, you will be redirected to the Profile page. This is where the user panel is located.

Password reset

Anyone can forget a password. We are prepared for such a scenario.

In the login form, select "Forgot your password?". Then enter your username or email address and click the "get password" button. Check your email. You will receive an email with a link to create a new password.

Choosing a course

1

On the home page, click the “Discover our course” button.

You will be redirected to the All Courses page

2

Select a course in Polish with a certificate in the same language by clicking the "Software Tester" button
or
Click the English flag icon to translate the page to English.

Select a course in English with a certificate in the same language by clicking the “AI in programming” button.

Get to know the course information

In the Course Program tab, you will find a list of modules and lessons.

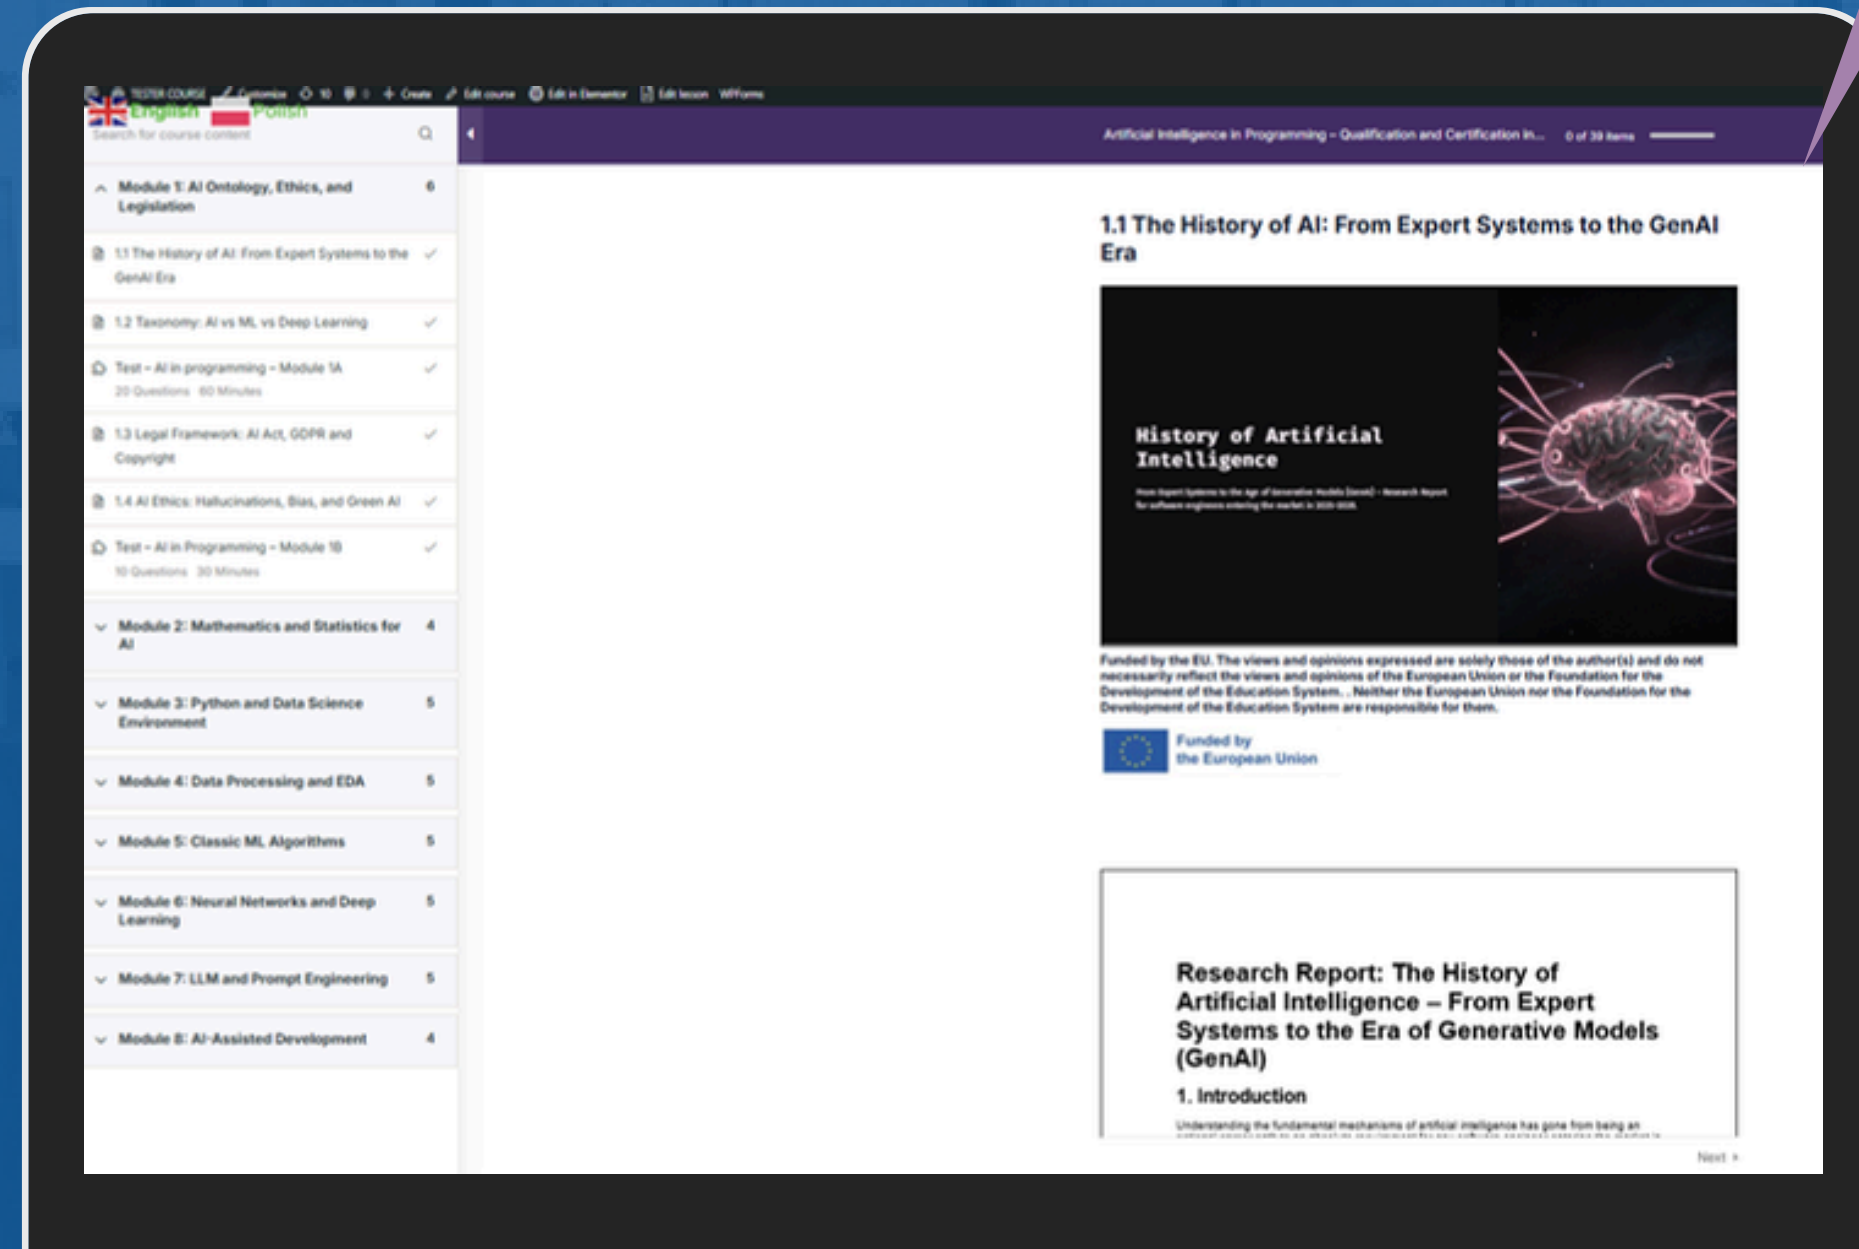

Then:

Click the “Get Started Now” button

The screenshot shows a course page with a dark purple header. At the top left, there are language options for 'English' and 'Polish'. The header includes the instructor's name 'Admin' and the category 'Uncategorized'. The main title of the course is 'Artificial Intelligence in Programming – Qualification and Certification in Vocational Education'. Below the title, there are statistics: '80 Hours', 'All Levels', '30th Lesson', '9 Tests', and '25 Students'. A hand icon with a red sleeve points to the 'Get Started Now' button. The page has tabs for 'Review', 'Course Program', and 'Instructor'. The main content area features a banner image with the text 'AI IN PROGRAMING' and a small 'Funded by the European Union' logo. Below the banner, there is a disclaimer: 'Funded by the EU. The views and opinions expressed are solely those of the author(s) and do not necessarily reflect the views and opinions of the European Union or the Foundation for the Development of the Education System. . Neither the European Union nor the Foundation for the Development of the Education System are responsible for them.' At the bottom, there is another 'Funded by the European Union' logo and a detailed project description: 'The project "Artificial Intelligence in Programming – Qualification and Certification in Vocational Education" (2024-1-PL01-KA210-VET000253203) is co-financed by the Erasmus+ program, Sector: KA210-VET – Small-scale Partnerships in School Education, Vocational Education and Training, Adult and Youth Education (KA210).

In the panel on the left side there is a list of lessons

By clicking on the name, you can go to the next lesson

The main part of the screen is occupied by the lesson content

After reading the lesson content

Click the “Finish” button

Confirm completion of this lesson. You will automatically move on to the next lesson. You can see that the first lesson is now marked in green as passed. You will be able to check the progress of your course in the user panel.

To exit the course view, tap the X icon in the upper right corner of the screen.

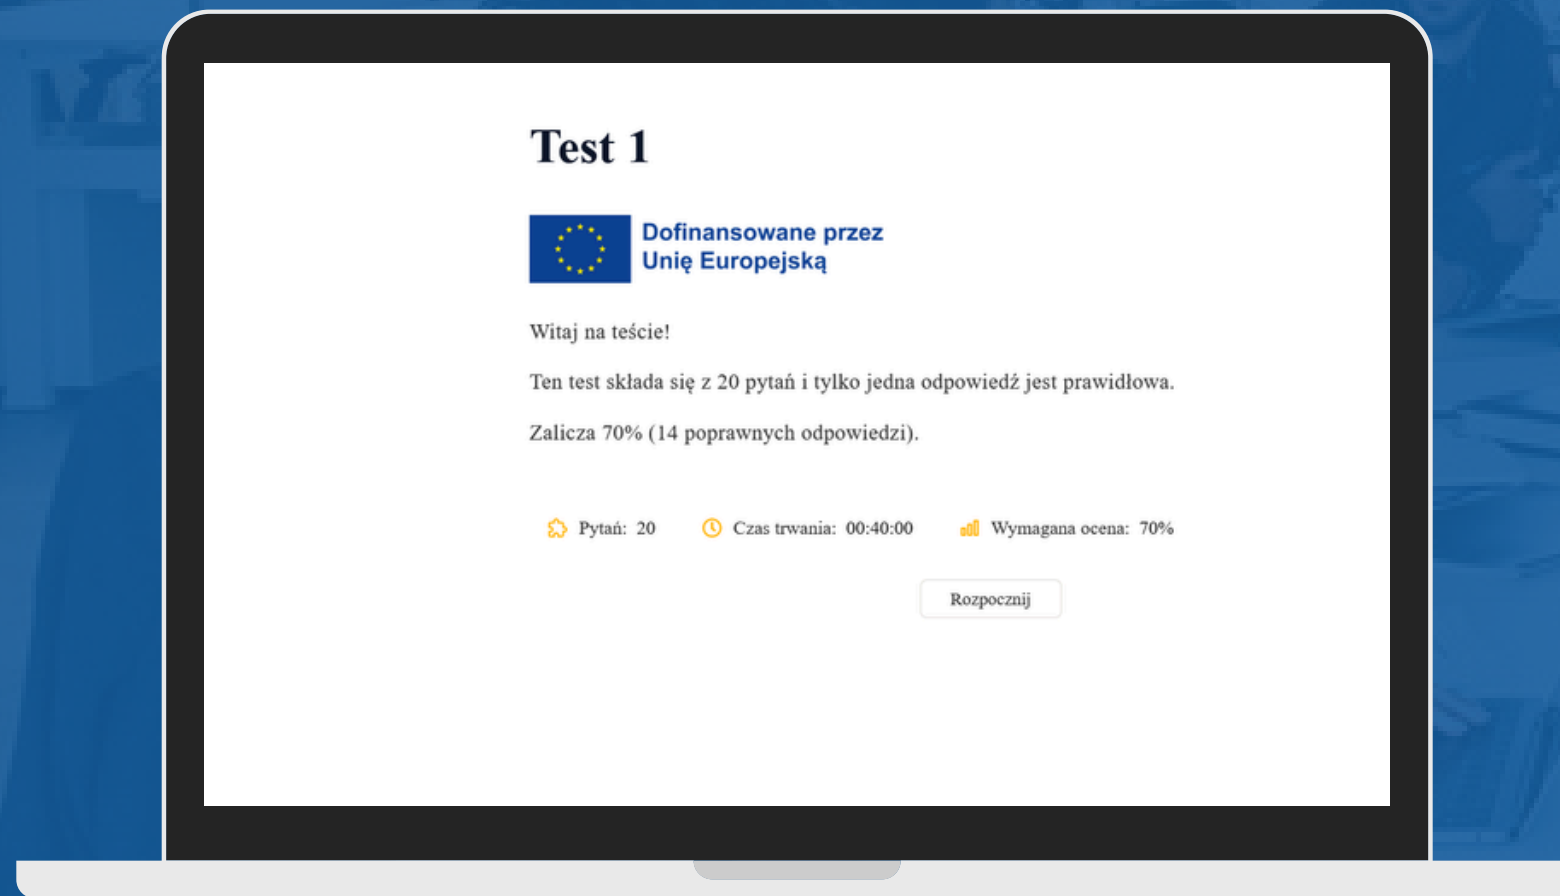

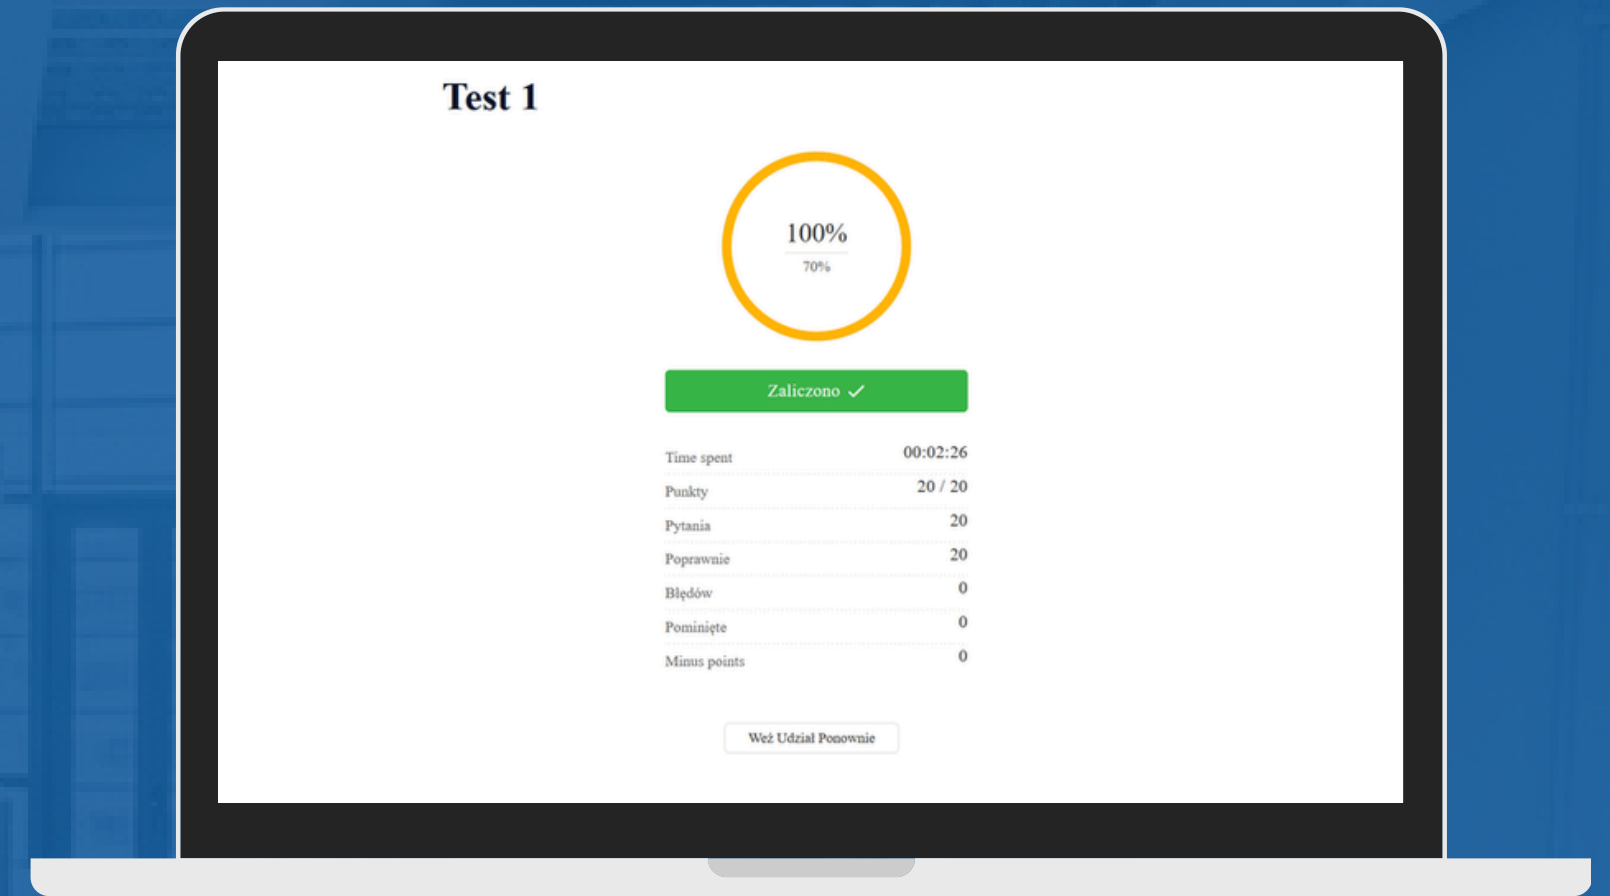

Knowledge check

At the end of the course there is a module to test the knowledge acquired.

To begin, click the “Get Started” button.

From this moment the test time will start counting. The test will end after the allotted time has elapsed or after clicking

“COMPLETE TEST” button and confirming your selection.

Once completed, you will see a summary of the most important test statistics.

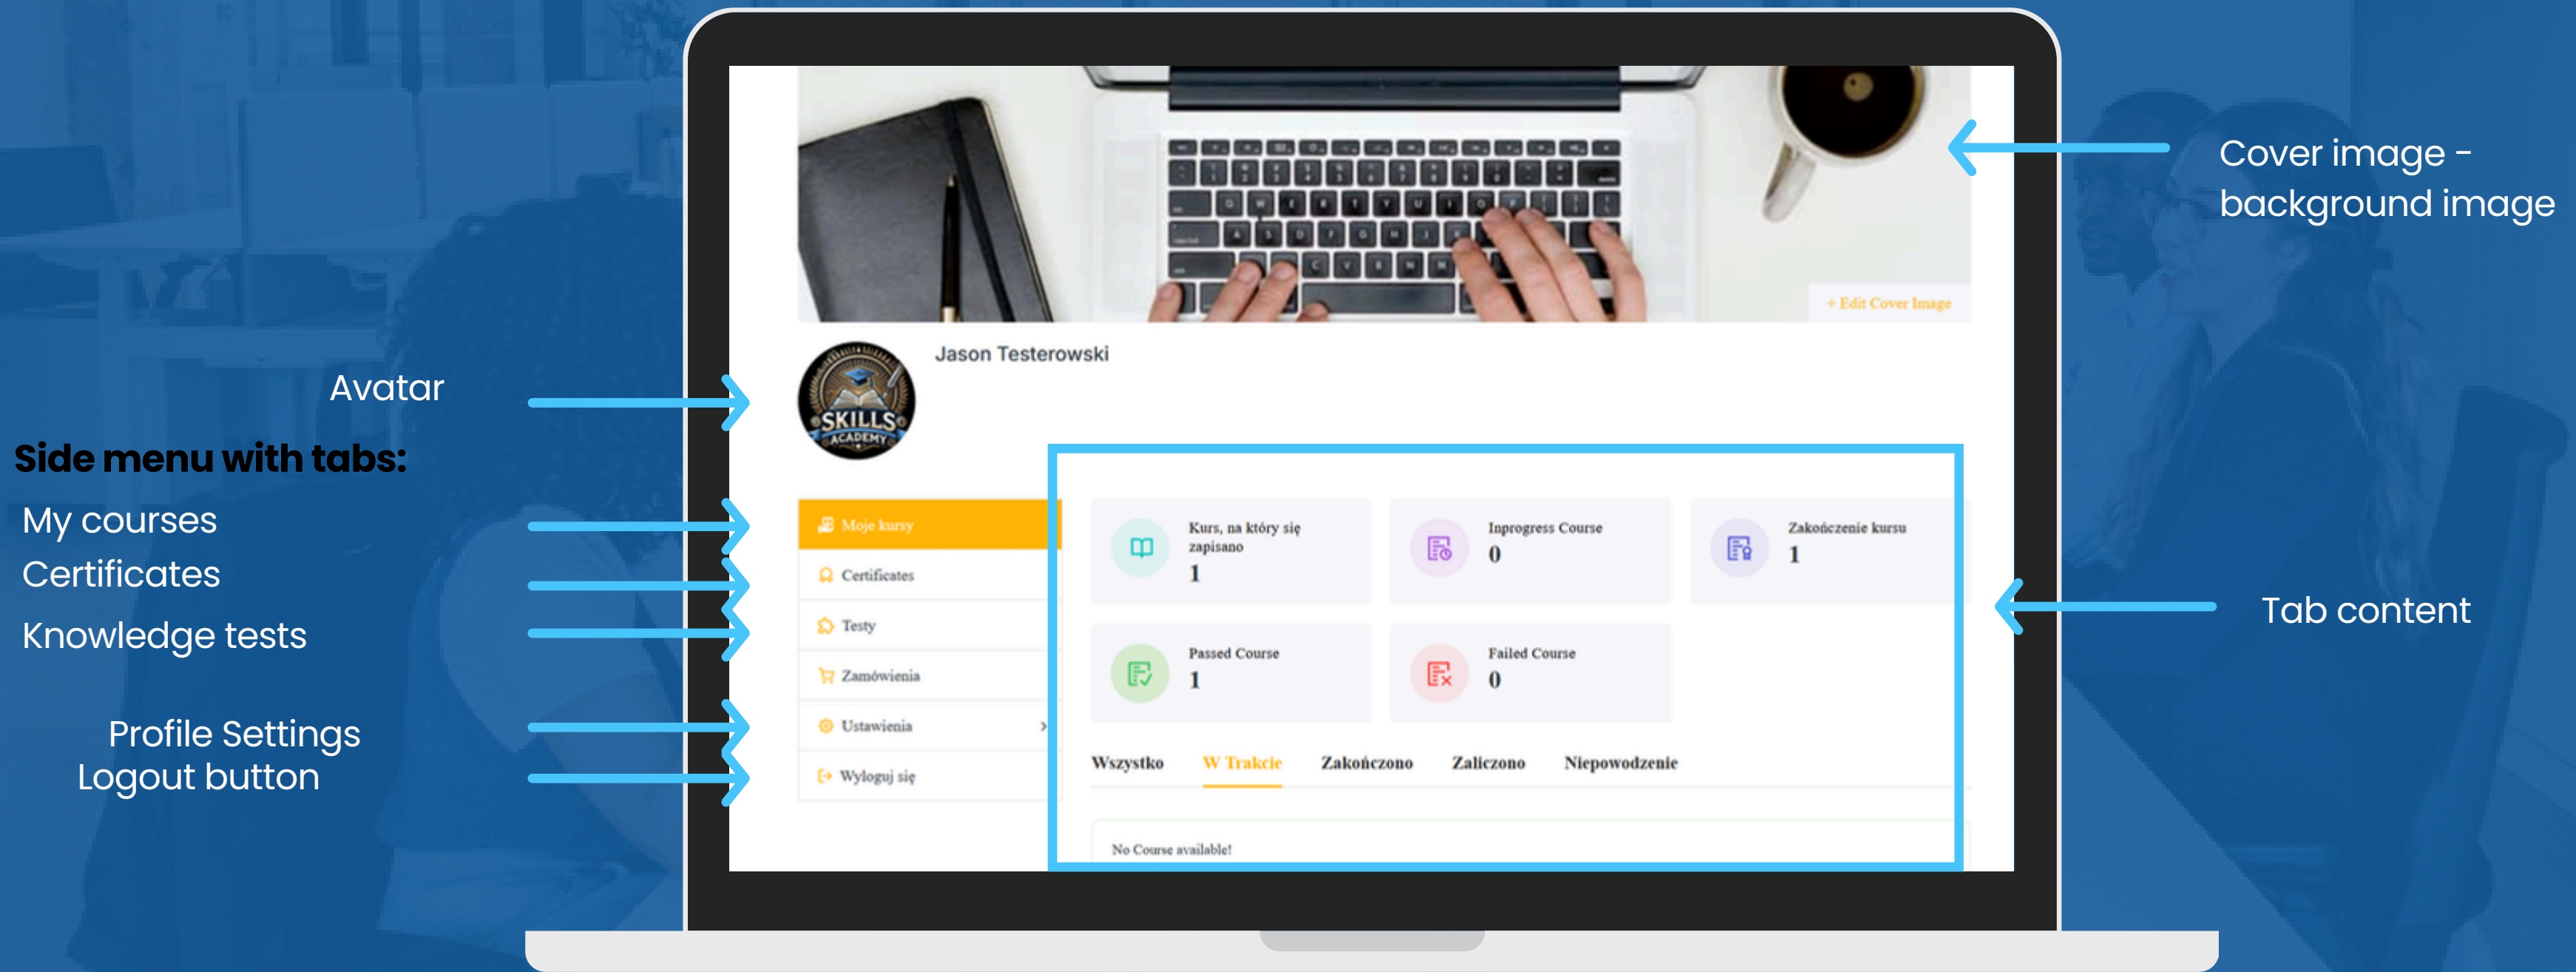

The final assessment of the knowledge acquired is the average result of all solved tests.

After successfully completing the knowledge verification module. You will complete the course and receive:

Certificate confirming the knowledge acquired.

Profile - user panel

The left panel contains the individual tabs
To the right of the menu is the content of the selected tab

Profile - User Panel: Certificates

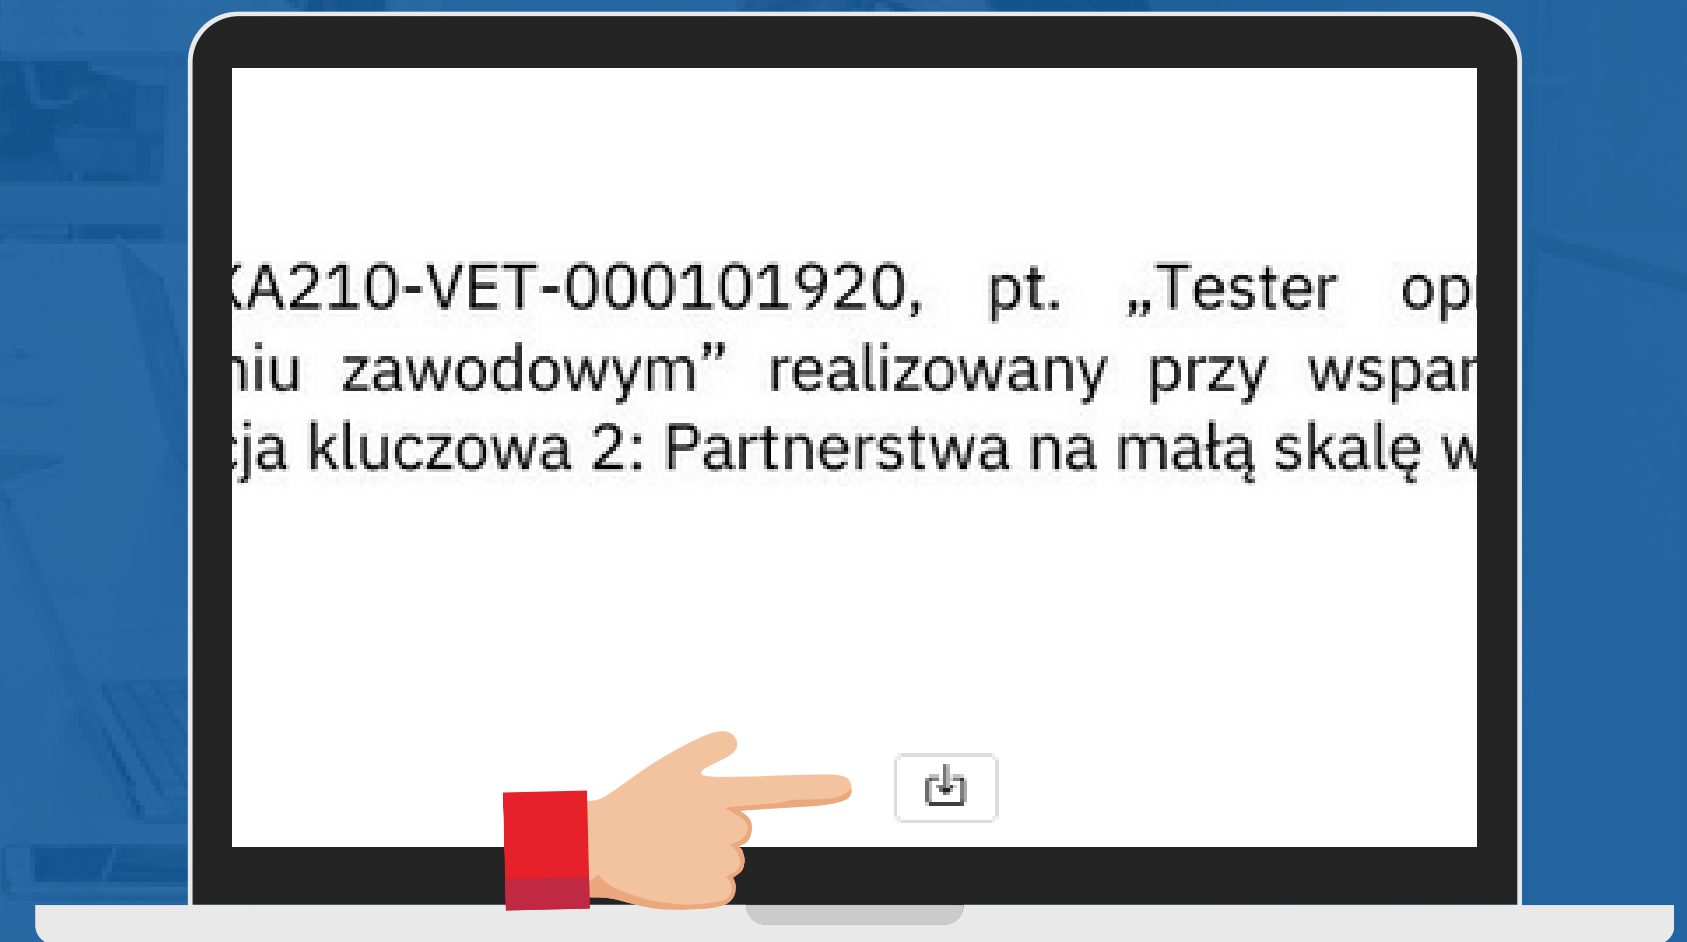

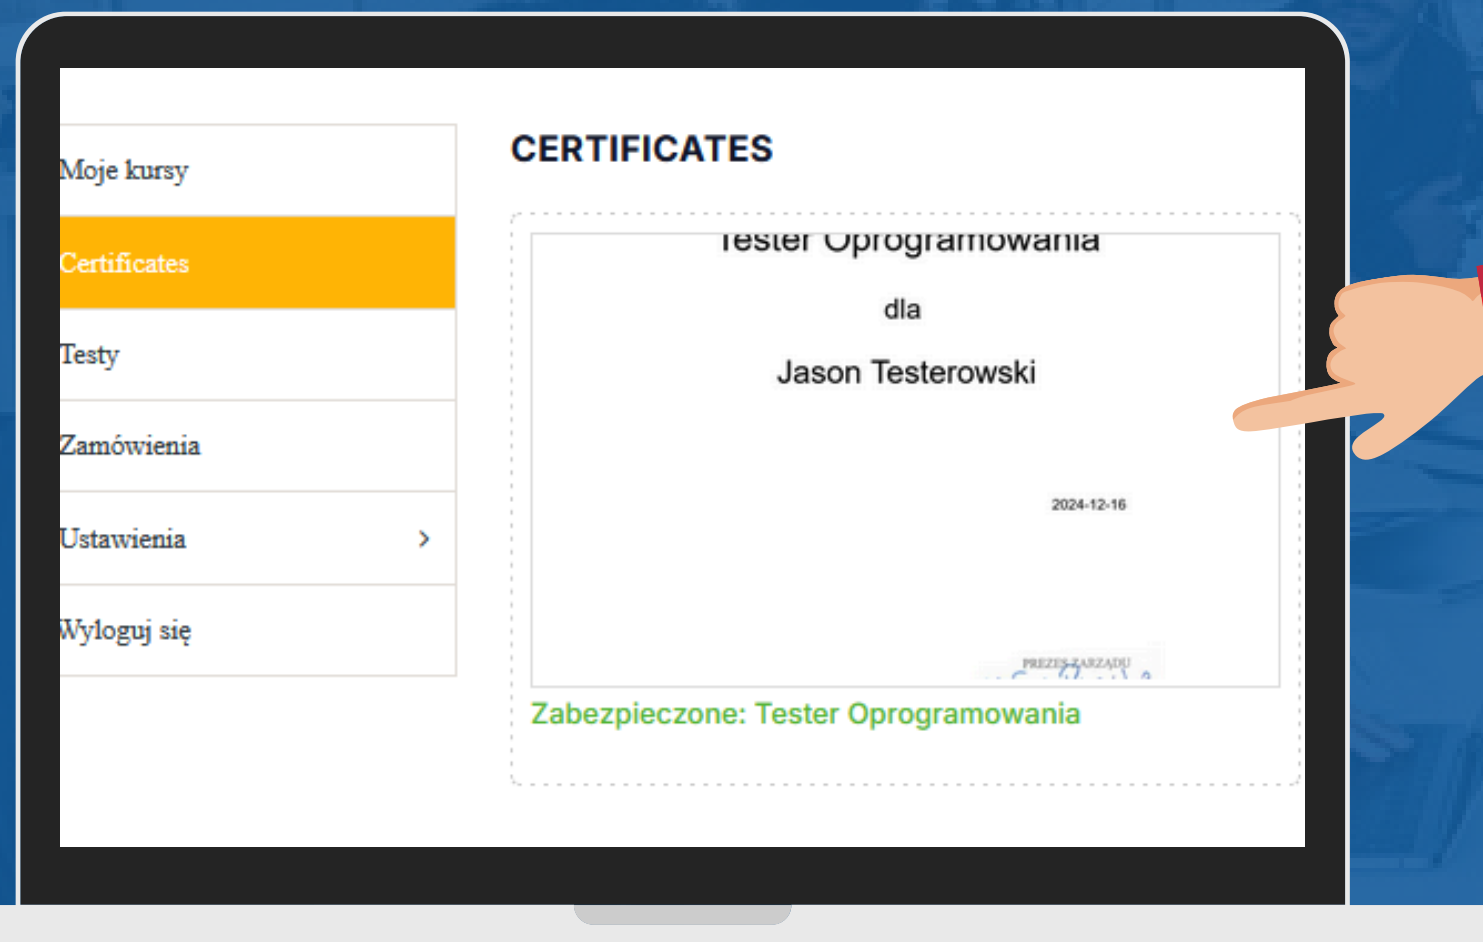

In the Certificates tab: you will find your acquired certificates

click on the Certificate image

the selected certificate will be displayed

Scroll down to the bottom of the window and press the button below it to save the Certificate to your computer's disk.

To return, press "Back" (left arrow) in your web browser. The certificate will be downloaded.
